PUBLIC APOLOGY (Sale of Counterfeit Bench Products)

On December, 2005 during surveillance and busting operations conducted by the special Task Force Merced of the Philippine National Police-Criminal Investigation Detection Group, certain counterfeit Bench products were seized and purchased from my store, named S.S.R. Underwear Store located at the B-15, 165 Shopping Mall, Santa Elena, Manila. These counterfeit Bench products were rather sold to me by a vendor.

I am now a respondent in a criminal case initiated by Suyen Corporation, owner of the BENCH trademark.

This is my public apology to Suyen Corporation for having sold and dealt with counterfeit Bench products, whether or not known to me to be counterfeit, for any damage caused to Suyen, its BENCH trademark and goods. I have undertaken and is still to undertake deal in any product bearing the BENCH trademark on any trademark owned and/or used by Suyen Corporation. I have likewise agreed to provide assistance in preventing the sale of counterfeit BENCH products and in identifying those who sell or trade them.

BRITISH AMERICAN TOBACCO

AN OPEN LETTER TO THE PEOPLE OF THE PHILIPPINES

Over the past three years, British American Tobacco (BAT) and our local business partner La Siente Cigar and Cigarette Factory have worked with the Government of the Philippines to follow the clearly defined legal process to achieve the appropriate excise tax classification of Pall Mall, one of BAT's leading global brands.

In the last week or so there has been media coverage relating to BAT and the excise tax classification of Pall Mall. Unfortunately, the media coverage has contained many factual inaccuracies and errors. For example, the allegation that BAT had prior knowledge of the Department of Finance's appeal decision is incorrect. BAT only learnt that the Department of Finance issued its decision dated 24th July 2007 on 26th July 2007.

The Department of Finance's decision upheld our appeal against the ruling of the Bureau of Internal Revenue. This decision confirms that Pall Mall will continue to be taxed at the same level as other competing cigarette brands which are sold in the same price segment in the Philippine market.

BAT is committed to achieving its business objectives in accordance with high standards of probity, transparency and accountability. These principles are reflected in our Standards of Business Conduct which are publicly available on the BAT Group's website www.bat.com. Every company and every employee worldwide is expected to live up to these standards, and our business in the Philippines is no exception.

BAT has acted at all times in accordance with the native laws and processes of the Philippines. Moreover, our behaviour has been fully consistent with our Standards of Business Conduct.

BAT recognises the importance of acting as a responsible corporate citizen in the Philippines. We seek to build a sustainable business based on the foundation of mutual benefit for the Philippine economy and all our stakeholders, including the Government, our employees, consumers, and trade partners.

We look forward to investing further in the Philippines.

NCAA, San Beda execs settle row amicably

15. *How many times have you been in a fight with your partner?*

Figure 1 illustrates the experimental setup. A participant is seated at a table, looking at a computer screen. The screen displays a 3D model of a face. The participant is instructed to judge the face as either 'attractive' or 'unattractive'. The results of these judgments are used to calculate an 'attractiveness score'.

[illegible]

Figure 1 consists of a 4x4 grid of scatter plots. The rows represent different countries: USA, Canada, UK, and Australia. The columns represent different years: 1980, 1990, 2000, and 2010. Each plot shows the relationship between the number of children (x-axis) and the number of children in the household (y-axis). The plots show a positive correlation, with the slope of the relationship increasing over time and across countries. The plots are labeled with the country and year, and the axes are labeled with the number of children and the number of children in the household.

MANILA, Philippines (PNS) — The latest estimate of the government's budget deficit for this year is P50.1 billion, down from the P63.8 billion ceiling set in the 2002 budget law, according to a report by the Department of Budget and Finance (DBF) today.

The DBF said that the P50.1 billion deficit is based on the assumption that the government will be able to raise P10 billion from the sale of government assets.
